Franz Joseph Haydn was a composer who lived almost 300 years ago in Austria. He worked for a prince and lived in a castle. His job was to write beautiful music for the prince and his guests. The prince would have big dinners for his guests, and after dinner there would be a concert.

Sometimes the guests ate so much at dinner that they got sleepy during the concert. Mr. Haydn was disappointed when he saw someone sleeping while his beautiful music was playing. He thought they didn't like his music. He decided to write a piece of music that would surprise the audience.

Pretend that you are in the audience at Mr. Haydn's concert. Pretend to sleep during the quiet parts. If you hear a surprise, wake up! How did Mr. Haydn surprise his audience?
